IDYLLIC BOUTIQUE RESIDENCES - Private residential community in Arroyo Enmedio, Estepona with contemporary apartments, spacious terraces, wellness areas, pools and landscaped gardens near the beach

A residential project in Arroyo Enmedio, Estepona, offering contemporary apartments with generous terraces and bright interiors. Residents enjoy landscaped gardens, swimming pools, wellness facilities, coworking areas and convenient access to beaches, gol

This residential development is located in Arroyo Enmedio, one of the most established residential areas in Estepona, just a short distance from the Mediterranean coastline. The project consists of two independent residential phases set on separate plots, each with its own private communal areas designed to encourage comfort, relaxation and everyday wellbeing.

The homes have been conceived with a contemporary architectural approach that prioritises natural light, open spaces and a strong connection with the surrounding landscape. Large windows allow daylight to flow through the interiors while also opening views towards the gardens and outdoor areas. The layouts are designed to maximise functionality and comfort, with generous terraces that extend the living areas and provide additional outdoor space for everyday use.

The development offers a selection of homes with two, three and four bedrooms, including ground floor residences with private gardens, mid-floor apartments with spacious terraces and penthouses with extensive solariums. Built surfaces range approximately from 82 m² to over 140 m² depending on the property type, complemented by terraces and outdoor areas that significantly expand the living space.

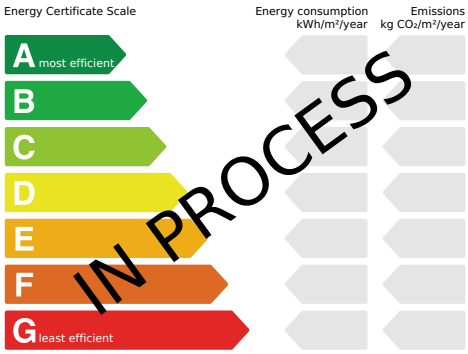

Attention has been placed on both design and technical quality. The construction includes reinforced concrete structures, insulated exterior enclosures and modern energy systems such as aerothermal technology for domestic hot water production. Homes also incorporate ducted air-conditioning systems for both heating and cooling, along with modern electrical and telecommunications installations.

The communal areas have been designed as a place to unwind and socialise. Landscaped gardens surround the residential buildings and integrate swimming pools, relaxation areas and spaces dedicated to wellness. Residents can also enjoy facilities such as a spa with sauna and Turkish bath, fitness areas, coworking spaces and leisure rooms.
